TrustBridge — product design

Evidence, protection, adjudication · eight screens · FigCraft, October 2026

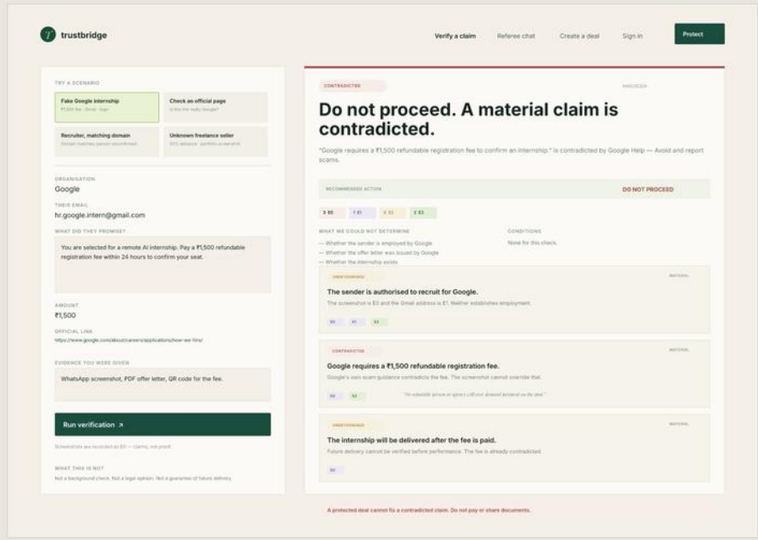

00 · SYSTEM

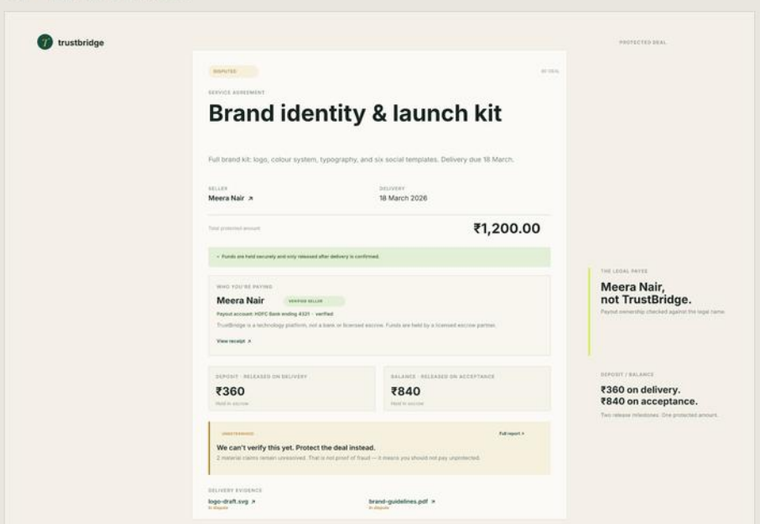

01 · LANDING

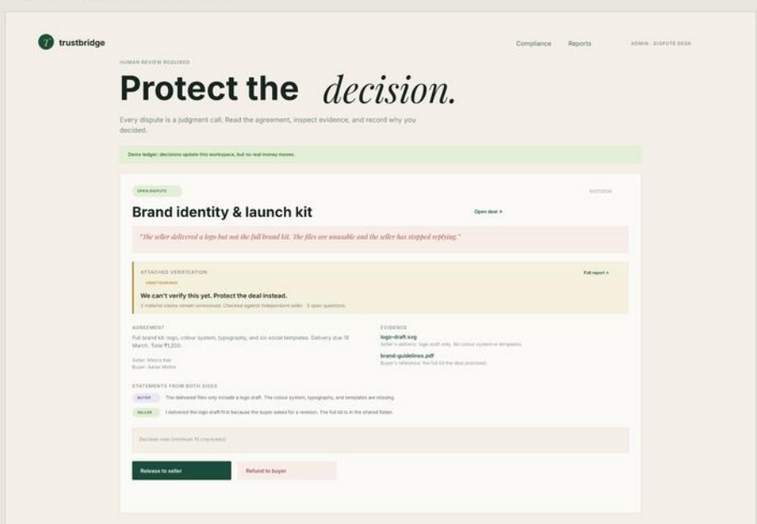

02 · CHECK

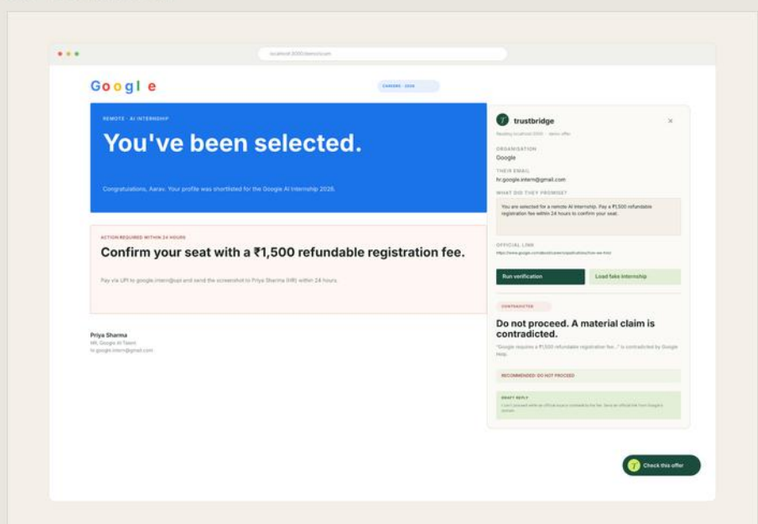

03 · DEAL & PAYEE

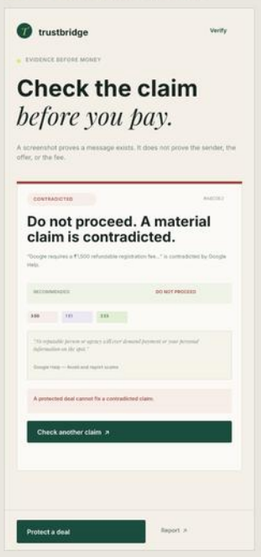

04 · ADMIN DECISION

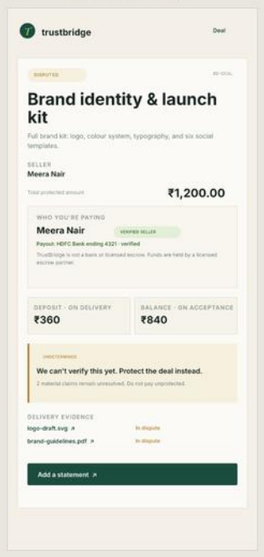

05 · EXTENSION

06 · MOBILE CHECK

07 · MOBILE DEAL

THE IDEA

Screenshots are claims, not evidence.

Four outcomes, never a score: verified, verified with conditions, contradicted, undetermined.

Every material claim carries an evidence tier and a timing — E3 + BEFORE is what reliance needs.

When certainty is impossible, protect the deal.
The payee is the verified seller, not TrustBridge.
A human decides the dispute with both statements and the attached verification report in front of them.

Design system: Inter + Playfair Display in FigCraft. Live app: DM Sans + Playfair Display + DM Mono.
